Note:

Since, the question is quiet about the treatment of Interest on Capitals, Salary to partner, Interest on Drawings. So we have prepared a solution by the following two methods:

1.Charge against profit

2.Distribution out of profits

The accurate answer to the following question is as per the distribution out of profit method. The 1st method i.e., charge against profit method was done only to match with the answer that was given in the NCERT.

If no information is given about the treatment of the above items then we usually follow Out Of Profits Method.
