- (f) Name the trees that grow in Ladakh

Answer: (a) The two types of deserts found in the world are hot deserts and cold deserts.

(b) The Sahara desert is located in Africa.

(c) The climate of the Ladakh desert is extremely cold and dry due to its high attitude which varies from about 3,000 m in Kargil to more than 8,000 m in the Karakoram. The air at this attitude is so then that the heat of the sun can be felt intensely. The day temperatures in summer are just above zero degree and the night temperatures are below -30°C . Winters are extremely cold with temperatures below -40°C for most of the time. There is very little rainfall in this region. It is as low as 10 cm every year. The area experiences freezing winds and burning hot sunlight. There is always a chance of sunstroke and frost bite at the same time.

(d) Ladakh is a famous tourist place. The tourists from within the country and abroad enjoy visiting Buddhist monasteries that dot the Ladakhi landscape with their traditional gompas.

The meadows and glaciers in Ladakh also attract these tourists.

The ceremonies and festivities in which the local people keep themselves engaged during winter months are great attractions to the tourists.
