

### Binary Operations Ex 3.5 Q1

$a \times_4 b$  = the remainder when  $ab$  is divided by 4.

eg. (i)  $2 \times 3 = 6 \Rightarrow 2 \times_4 3 = 2$   
[When 6 is divided by 4 we get 2 as remainder]

(ii)  $2 \times 3 = 4 \Rightarrow 2 \times_4 2 = 0$   
[When 4 is divided by 4 we get 0 as remainder]

The composition table for  $\times_4$  on set  $S = \{0, 1, 2, 3\}$  is :

$\times_4$	0	1	2	3
<b>0</b>	0	0	0	0
<b>1</b>	0	1	2	3
<b>2</b>	0	2	0	2
<b>3</b>	0	3	2	1

### Binary Operations Ex 3.5 Q 2

$a +_5 b$  = the remainder when  $a + b$  is divided by 5.

eg.  $2 + 4 = 6 \Rightarrow 2 +_5 4 = 1$   $\therefore$  [we get 1 as remainder when 6 is divided by 5]

$2 + 4 = 7 \Rightarrow 3 +_5 4 = 2$   $\therefore$  [we get 2 as remainder when 7 is divided by 5]

The composition table for  $+_5$  on set  $S = \{0, 1, 2, 3, 4\}$ .

$+_5$	0	1	2	3	4
<b>0</b>	0	1	2	3	4
<b>1</b>	1	2	3	4	0
<b>2</b>	2	3	4	0	1
<b>3</b>	3	4	0	1	2
<b>4</b>	4	0	1	2	3

### Binary Operations Ex 3.5 Q3

$a \times_6 b$  = the remainder when the product of  $ab$  is divided by 6.

The composition table for  $\times_6$  on set  $S = \{0, 1, 2, 3, 4, 5\}$ .

$\times_6$	0	1	2	3	4	5
<b>0</b>	0	0	0	0	0	0
<b>1</b>	0	1	2	3	4	5
<b>2</b>	0	2	4	0	2	4
<b>3</b>	0	3	0	3	0	3
<b>4</b>	0	4	2	0	4	2
<b>5</b>	0	5	4	3	2	1

### Binary Operations Ex 3.5 Q4

$a \times_5 b$  = the remainder when the product of  $ab$  is divided by 5.

The composition table for  $\times_5$  on  $Z_5 = \{0, 1, 2, 3, 4\}$ .

$\times_5$	0	1	2	3	4
<b>0</b>	0	0	0	0	0
<b>1</b>	0	1	2	3	4
<b>2</b>	0	2	4	1	3
<b>3</b>	0	3	1	4	2
<b>4</b>	0	4	3	2	1

### Binary Operations Ex 3.5 Q5

$a \times_{10} b$  = the remainder when the product of  $ab$  is divided by 10.

The composition table for  $\times_{10}$  on set  $S = \{1, 3, 7, 9\}$

$\times_{10}$	1	3	7	9
<b>1</b>	1	3	7	9
<b>3</b>	3	9	1	7
<b>7</b>	7	1	9	3
<b>9</b>	9	7	3	1

We know that an element  $b \in S$  will be the inverse of  $a \in S$

$$\text{if } a \times_{10} b = 1 \quad \left[ \because 1 \text{ is the identity element with respect to multiplication} \right]$$

$$\Rightarrow 3 \times_{10} b = 1$$

From the above table  $b = 7$

$\therefore$  Inverse of 3 is 7.
