

## NCERT SOLUTIONS FOR CLASS 6 MATHS DATA HANDLING EXERCISE 9.4

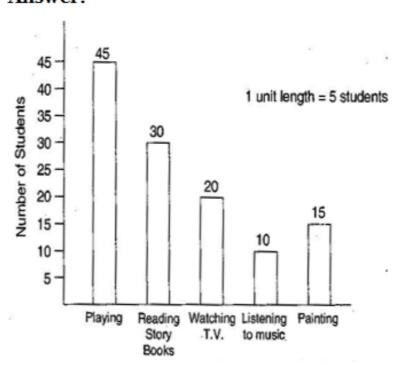

**Question** 1. A survey of 120 school students was done to find which activity they prefer to do in their free time:

| Preferred activity  | Number of students |
|---------------------|--------------------|
| Playing             | 45                 |
| Reading story books | 30                 |
| Watching TV         | 20                 |
| Listening to music  | 10                 |
| Painting            | 15                 |

Draw a bar graph to illustrate the above data taking scale of 1 unit length = 5 students

Which activity is preferred by most of the students other than playing?

#### Answer:

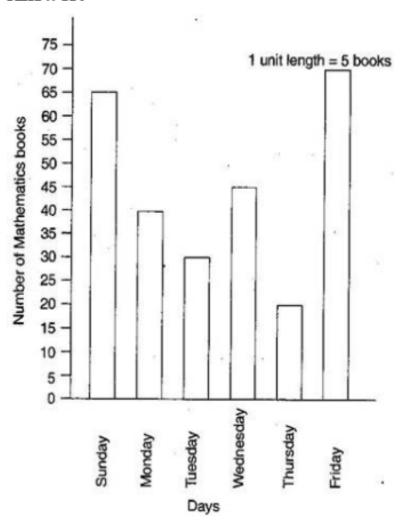

# **Question** 2. The number of mathematics books sold by a shopkeeper on six consecutive days is shown below:

| Days        |        | Sunday | Monday | Tuesday | Wednesday | Thursday | Friday |
|-------------|--------|--------|--------|---------|-----------|----------|--------|
| No. of book | s sold | 65     | 40     | 30      | 50        | 20       | 70     |

Draw a bar graph to represent the above information choosing the scale of your choice.

#### Answer:

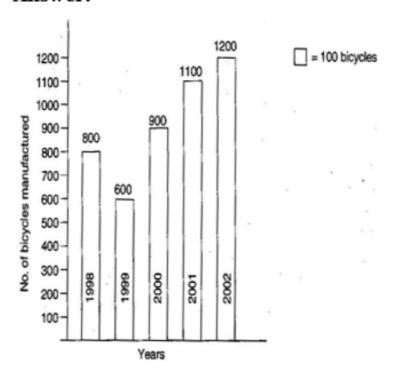

**Question** 3. Following shows the number of bicycles manufactured in a factory during the year 1998 to 2002. Illustrate this data using a bar graph. Choose a scale your choice.

| Year<br>s | Number of bicycles<br>manufactured |
|-----------|------------------------------------|
| 1998      | 200                                |
| 1999      | 600                                |
| 2000      | 900                                |
| 2001      | 1100                               |
| 2002      | 1200                               |

(a)In which year were the maximum number of bicycles manufactures?

(b)In which year were the minimum number of bicycles manufactured?

#### Answer:

- (a) 2002
- (b) 1999

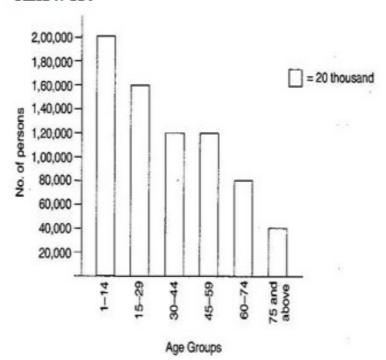

**Question** 4. Number of persons in various age groups in a town is given in the following table:

| Age Group       | Number of<br>persons |
|-----------------|----------------------|
|                 | 2 Lakhs              |
| 1 – 14          | 1 lakh 60            |
| 15 – 29         | thousands            |
| 30 - 44         | 1 lakh 20            |
| 45 - 59         | thousands            |
| 60 – 74         | 1 lakh 20            |
|                 | thousands            |
| 75 and<br>above | 80 thousands         |
|                 | 40 thousands         |

Draw a bar graph to represent the above information and answer the following questions. (take 1 unit length = 20 thousands)

- (a)Which two age groups have same population?
- (b)All persons in the age group of 60 and above are called senior citizens. How many senior citizens are there in the town?

### Answer:

(a)Group 30 – 44 and group 45 – 59 80,000 + 40,000 = 1,20,000
