

Decimals Ex 3.1 Q8

Answer:

Let x be subtracted from 17.1 to get 2.051.

$$\therefore 17.1 - x = 2.051$$

or,
$$x = 17.1 - 2.051$$

= 15.049

Thus, we need to subtract 15.049 from 17.1 to get 2.051.

Decimals Ex 3.1 Q9

Answer:

Let 34.79 be increased by x to get 70.15.

$$34.79 + x = 70.15$$

or,
$$x = 70.15 - 34.79$$

= 35.36

Thus, 34.79 should be increased by 35.36 to get 70.15.

Decimals Ex 3.1 Q10

Answer:

Let 59.71 be decreased by x to get 34.58.

$$\therefore 59.71 - x = 34.58$$

or,
$$x = 59.71 - 34.58$$

= 25.13

Thus, 59.71 should be decreased by 25.13 to get 34.58.
